Solar Electric Sales Representative / Energy Consultant

Simple Solar has an immediate need for motivated, experienced, dedicated, service-oriented self-starters who are passionate about a sales career in alternative energy.

A qualified applicant must:

- Be responsive to customer requests
- Establish and maintain excellent customer relationships
- Communicate effectively with clients and teammates
- Possess a background/education in solar electric benefits and technology
- Exhibit a professional appearance and manner
- Independently cover a sales territory from south Denver to Colorado Springs
- Be comfortable working on ladders and roofs

Responsibilities include:

- Conduct residential site evaluations
- Prepare sales proposals
- Present solution benefits
- Close business with prospects
- Ensure customer satisfaction
- Participate in marketing events

This position is expected to expand as Simple Solar continues to respond to and drive demand for their services. Pay is commission-based.

Simple Solar credits our 15 years of success to an unwavering commitment to customer service, dedication to quality solutions, and development of a closely knit team. To learn more, please visit us at www.simplesolar.com.
